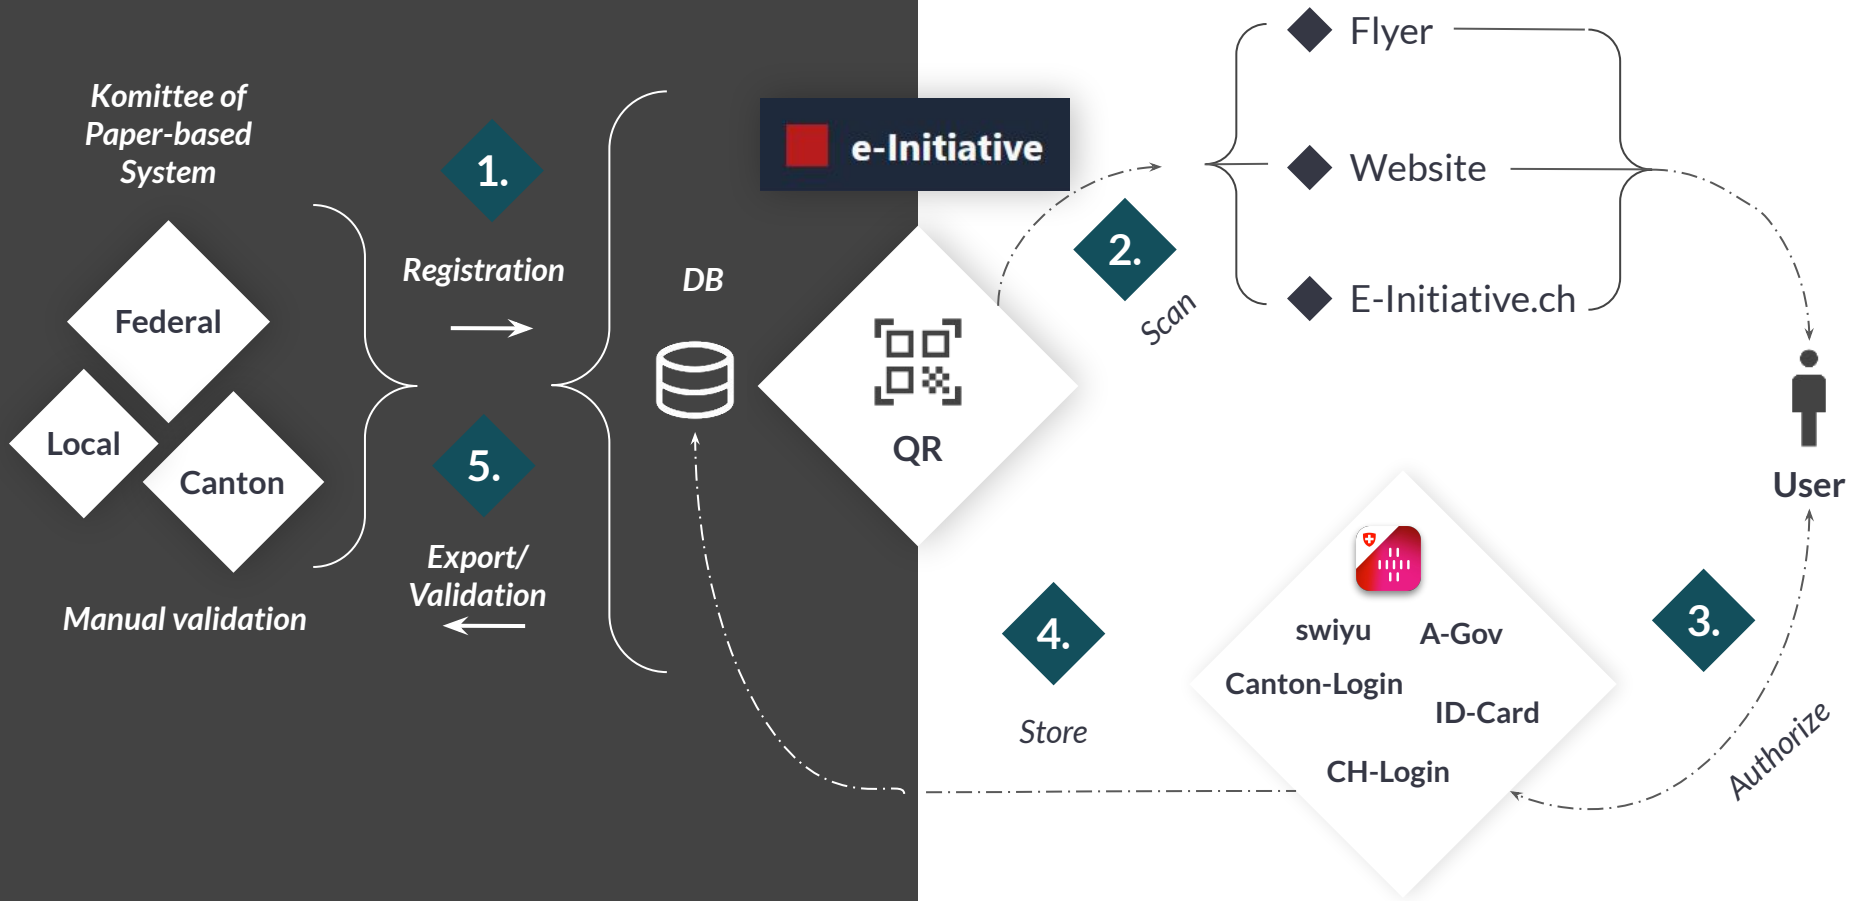
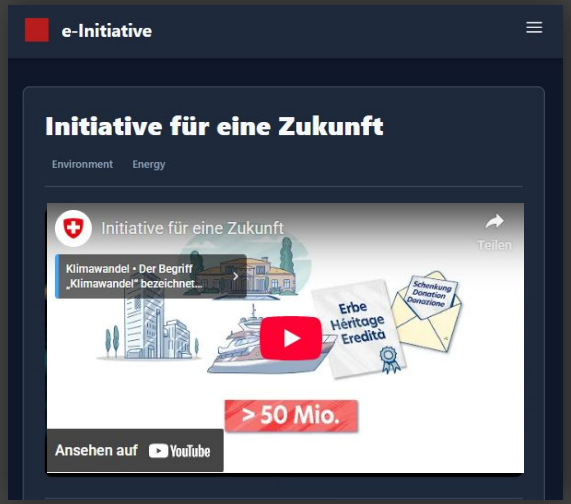
E - INITIATIVE

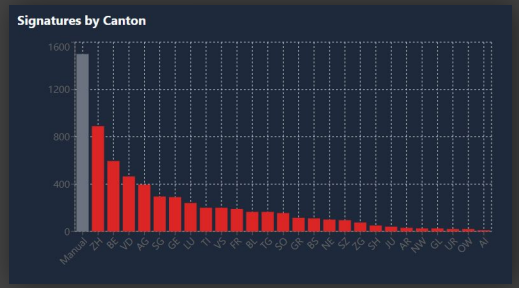
HACKATHON - 01.11.2025

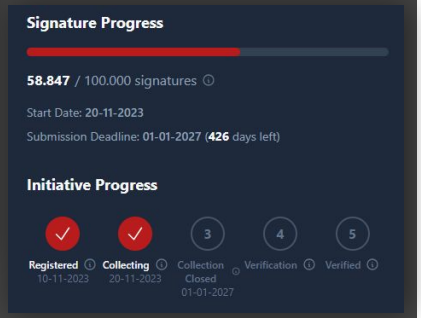
VOTING JOURNEY



PLATFORM BENEFITS







- Status Updates
- Export to Muncipality
- E-ID Integration
- Flexible to external needs

TOPICS

1. **From willingness to signature**
   Unified, secure user flow — e-ID login and encrypted communication & data storage
2. **Access to collected signatures**
   Personal information can only be decrypted by the municipality that needs them.
3. **Attribution to committees**
   Referral code for each collecting party.
4. **Information on e-collecting projects**
   Registration for newsletters is not the responsibility of the tool. The tool-administrator approves the content of the initiative.
5. **Exclusion of invalid signatures**
   Validation through e-ID.
6. **Prevention of lost or hidden signatures**
   Is in the responsibility of the municipality. Referral codes allows committees to check the numbers.
7. **Protection of voting secrecy**
   Only the municipality has access on this information.
8. **Integration with paper process**
   CVS export to integrate in existing systems, openness to adapting APIs.
9. **Easy adoption for municipalities**
   User friendly - download functionality (CSV, PDF).
10. **Applicable to all federal levels**
    Cantonal and federal Initiative are supported, Municipal ones can be added.
